CALGARY, ALBERTA – JANUARY 30, 2018 – Sparta Capital Ltd. (TSXV: SAY) (the “**Corporation**” or “**Sparta**”) has released its financial results for the year ended September 30, 2017. Highlights in this news release should be read in conjunction with the Corporation’s annual audited financial statements and Management’s Discussion & Analysis, which are available on SEDAR (www.sedar.com).

With more than a fifty percent increase in year-over-year revenues, the Corporation is well positioned for continued growth in 2018 following successful expansion of various divisions and the reactivation of the Corporation from the NEX board of the TSX Venture Exchange (“**TSXV**”) to Tier 2 of the TSXV.

Sparta’s Re-Eco Tech division continued to expand in 2017 by increasing its heavy equipment and environment-friendly hydro-vac excavation fleet, and additionally, by adding to its service offerings to include electronic recycling, permitting Sparta to assist industrial and commercial operations to safely dispose of electronic waste.

Illumineris added to its line of products, identifying previously overlooked sources of lost energy and providing energy capturing solutions. Now, with an established ongoing relationship with CWB Maxium Financial, Illumineris can fund unique technologies that convert waste (energy) into bottom line savings to its customers.

Sparta’s acquisition of SuperNova Performance Technologies Ltd. (“**SuperNova**”) in the summer of 2017 opened the door to the transportation sector, with a focus on technologies capable of powering novel generation systems.

About Sparta

Sparta Capital Ltd. fosters and distributes a range of energy efficient solutions. Following the acquisition of Canadian based Newport Environmental Technologies Ltd. (“**Newport**”) Sparta continued the process of securing several other licenses for technologies developed to save fuel, while reducing carbon emissions in various markets. Since the acquisition of Newport, Sparta established three new divisions: Sparta Technologies 4 Mining Ltd; to cater to the special needs of the mining industry, Illumineris, a division with a comprehensive suite of smart-building, energy-optimizing technologies; including a line of glow-in-the-dark safety products, and ReECO Tech; a materials conversion division. In addition, Sparta recently

acquired Supernova Performance Technologies Ltd., a company that focuses on green initiatives for the transportation sector. For a closer look at the company profile, please visit: [Sparta Environmental Technologies](#).
